St. Peter holding the keys to the Kingdom of Heaven

This painting of St. Peter was found in the parish warehouse last summer. It was sandwiched between 2 sheets of project board with writing on the outside: "Restored by Wayne Ditch". Mr. Ditch applied gold leaf to the interior of the church during the 1997/2000 renovation project.

The painting is believed to be one of several that once decorated the ceiling of the old church which served the parish from 1898 to 1952. The picture frame was fabricated by Albert Johnson from recycled lumber that is believed to come from the same old church. We will hang the picture in the vestibule after a few weeks of showcasing it in the sanctuary.

Parish Book Club

Parish Book Club will meet Feb 12, 19, 26; March 5, 12 in the Family Life Center from 6-7pm. We will read and discuss "Navigating the Interior Life" by Fr. Dan Bartunek.

Books are available and you can sign up in the parish office. (\$13 donation)

Pro Life

What is Pro Life? Are we sure we are 100% Pro Life? – Part V

The Church teaches that all life is sacred and must be cherished and protected from conception to natural death. By keeping this guiding principle in mind in reviewing all the following moral issues of today, we can quickly see what it means to be 100% Pro Life, no exceptions.

Euthanasia or Assisted Suicide

This is an imposed death. It is intentionally doing something or not doing something in order to induce the death of a person.

Both culturally and medically the following terms have been broadly expanded: terminal condition, persistent vegetative state, brain death, and medical treatment. Therefore, when making decisions based on these terms, we must be careful that our first guiding principle still remains not to hasten death because of false compassion for the comfort of the patient. Rather, health care is always to preserve life and give good care until natural death.

What is good care for the terminally ill patient? What if society, the medical profession and their loved ones, and maybe the patient themselves think they should die by their own choice? It's their life, right? If we cannot end their life (euthanasia) or help them take their own life (assisted suicide), what can be done?

The following can be done and is good ethical medical care:

- Administering pain medication whose first purpose is to alleviate intense suffering.
- Stopping treatment that is a grave painful burden on a very sick terminal person.
- Withdrawing nutrition and hydration when a person's body can no longer absorb it and which could even cause them more harm.

If you believe that Euthanasia or Assisted Suicide is wrong, then you are Pro Life on this issue.
